

EXERCISE – 10

Question

To execute the following commands in Kali Linux Operating System:

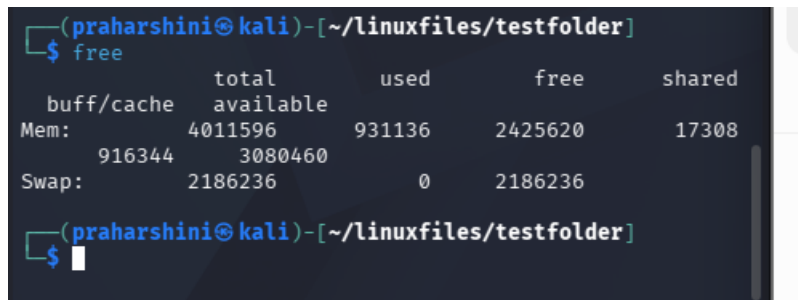

- i) free command
- ii) sort command
- iii) history command

Aim

To execute and display the results of the free, sort, and history commands in Kali Linux.

1. FREE COMMAND: COMMAND

free

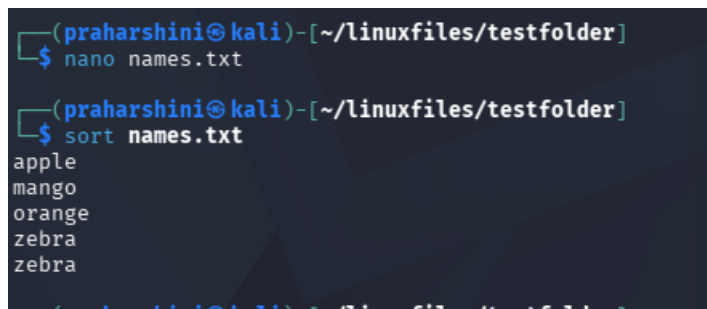

```
(praharshini@kali)~/linuxfiles/testfolder
$ free
              total        used        free      shared  buff/cache
Mem:      4011596      931136      2425620         17308
          916344      3080460
Swap:      2186236           0      2186236
```

Use

The free command is used to **display information about the system's memory usage**, including total, used, free, and available memory.

2. Sort Command Command

nano names.txt
sort names.txt

```
(praharshini@kali)~/linuxfiles/testfolder
$ nano names.txt

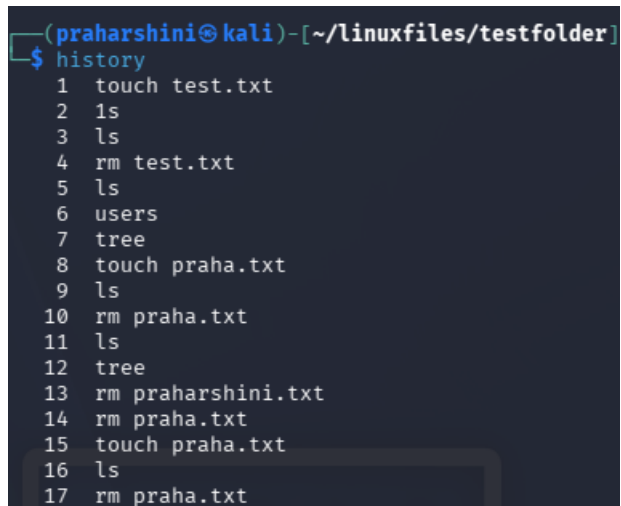

(praharshini@kali)~/linuxfiles/testfolder
$ sort names.txt
apple
mango
orange
zebra
zebra
```

Use

The sort command is used to **arrange lines of text in alphabetical or numerical order**.

3. History Command Command

History

A terminal window screenshot showing the output of the 'history' command. The prompt is '(praharshini@kali)~[~/linuxfiles/testfolder]'. The command entered is '\$ history'. The output lists 17 commands in a numbered list:

```
(praharshini@kali)~[~/linuxfiles/testfolder]
$ history
1 touch test.txt
2 ls
3 ls
4 rm test.txt
5 ls
6 users
7 tree
8 touch praha.txt
9 ls
10 rm praha.txt
11 ls
12 tree
13 rm praharshini.txt
14 rm praha.txt
15 touch praha.txt
16 ls
17 rm praha.txt
```

Use

The history command is used to display the list of previously executed commands in the terminal.

Result

Thus, the free, sort, and history commands were successfully executed in Kali Linux and their results were displayed.
